

new life CENTER

a refuge from domestic violence

In addition to safety and shelter, New Life Center provides food, clothing, personal care items and other necessities to over **100 women and children each day**. Your support in providing these items allows the Center to continue the important work of helping women and children escape violence.

The following list are items that are in constant rotation and must be purchased on a weekly basis. Items donated help offset costs which allow us to focus funding on other valuable resources.

If you can partner with New Life Center to provide any of these items, please contact the Community Development Department at (623) 932-4404.
